FREE DELIVERY OF SEEDS

We pay for the delivery of all Flower and Vegetable seeds. These will be forwarded by Parcels Post, Express or Freight at our option.

TESTED FOR GERMINATION

All of our seeds both vegetable and flower are tested for germination either in the greenhouses at our Fairport Trial Grounds or by a famous State Experiment Station. The result appears on every package of vegetable seed we send out.

PROVEN SEED

Many of our seed stocks of such kinds as Celery, Lettuce, Cauliflower, Cabbage, etc., are tried out by growers the year previous to our offering them for sale, that we may know the results they produce. This is what we call "proven seed." It is a test for purity of strain.

Cauliflower

Early Snowball—The seed of this strain of Snowball Cauliflower is grown for us by a man known to many as one of the most expert and reliable Cauliflower seed growers in Europe. We have reason to believe from the reports brought to us by Cauliflower growers who use this seed year after year that it is far above the average Early Snowball seed offered. It matures early and evenly. The pure white heads are remarkable for their great depth and unexcelled white color and do not become "soft" or "ricy" and you will not find any with green leaves in them. ½ Oz. 95c.; Oz., \$1.75; ¼ lb, \$6.25; lb, \$22.00.

Danamerica Super Snowball. A new variety making a very large, deep, solid, snow white head. The heavy upright growing leaves are very numerous and being close together force the small inner leaves to curl over and protect the head. Most cauliflower growers are always looking for something a little better. Here it is. We suggest a trial of this kind. ¼ Oz., \$1.25; ½ Oz., \$2.00; Oz., \$3.50; ¼ lb, \$10.00.

TRY THESE NEW CAULIFLOWERS

Pioneer. Very vigorous, making first grade heads when other kinds fail. Early, large, solid, pure white. ¼ Oz., 75c.; Oz., \$2.75.

Snowdrift. A few days later than Pioneer and Snowball. Large, solid, deep headed. Several Cauliflower growers have told us it is the best they ever raised. ¼ Oz., 70c.; Oz., \$2.50.

Celery

Golden Pascal. A yellow celery with the shape and quality of green celery. Stems are rather narrow but very thick and rounded and of excellent length, the edible portion usually runs from 9 to 10 inches long. Grows a little taller than Golden Plume and matures about the same time as Dwarf Golden Self-Blanching. A very high quality celery for a premium trade. ¼ Oz., 65c.; Oz., \$2.00; ¼ lb, \$7.00; lb, \$25.00.

Golden Plume (Wonderful). In our opinion this is the best early yellow celery and our Special Strain as fine as any in the country. The stalks are large, thick and solid, and the edible portion unusually long. The plants are compact, full-hearted and blanch readily. We are very proud of this Special Strain of Golden Plume, we know it will please the most critical celery grower. Oz., 75c.; ¼ lb, \$2.75; lb. \$10.00.

Golden Self-Blanching. The Old Dwarf-Growing, Long Keeping Kind. This is the most popular late variety. The stalks are thick and solid and the stocky plants have large, solid hearts. Celery growers have found our strain of this kind very good. We can fully recommend it to you. Oz., 65c.; ¼ lb, \$2.25; lb, \$8.00.

The ears are 7 to 8 inches long, 10 to 14 rowed, lighter yellow than Bantam and just about every ear is exactly alike, in size, form and color. Very prolific and highly resistant to Stewart's disease. 5 lbs, \$2.00; 15 lbs, \$5.50; 25 lbs, \$9.00; 100 lbs, \$35.00.

Early Fortune—A greatly improved White Spine, early and very productive, with rich dark green fruit, 8 to 9 inches long, very uniform in shape and one that holds its color when shipped better than any other outside grown cucumber we know of. Large cucumber growers, who have tried our Early Fortune, say it's the best on the market. ¼ lb, 40c.; lb, \$1.35; 5 lbs or more at \$1.25 per lb.

Longfellow—An excellent long, slender, dark green kind desirable as a "straight pack" variety for shipping or as a garden cucumber. ¼ lb, 40c.; lb, \$1.35; 5 lbs or more at \$1.25 per lb.

Straight-8. A splendid new variety with dark green cylinder-shaped fruits about 8 inches long and 1½ inches in diameter. Well rounded at the ends, deep green and free from striping and tipping. A very good market cucumber. Oz., 35c.; ¼ lb, \$1.00; lb, \$3.25; 5 lbs or more at \$3.00 per lb.

National Pickling. An immense bearer of straight, blunt ended, bright deep green cucumbers. Pick them as soon as they get the right size for your trade and the vines will bear most abundantly. ¼ lb, 40c.; lb, \$1.35; 5 lbs or more at \$1.25 per lb.

THE BEST HOTHOUSE CUCUMBER

The value of our "Deltus" cucumber has been proven by growers all over the country. We believe it the finest cuke for forcing ever introduced. The fruit is long, uniform diameter its entire length, ends are very blunt, cutting down the waste in slicing; skin smooth, rich dark green; flesh solid, crisp and tender. Greenhouse grown and selected seed. About 1000 seeds to an ounce. ¼ Oz., 80c.; ½ Oz., \$1.50; Oz., \$2.75; ¼ lb \$10.00.

Cauliflower Growers—We call your particular attention to Dana-merica Super-Snowball Cauliflower. It's a comer. Give it a trial this year.

Treat your Spinach Seed with Cuprocide (Red Copper Oxide). It not only increases germination but makes the plant sturdier and of a much better color. Use 10 ounces of Cuprocide to 10 lbs. of spinach seed. lb, 90c.; 5 lbs, \$4.00; 20 lbs, \$14.00.

Wilt-Resistant Aster Seed

We recommend all Aster growers, whether they have been bothered with disease or not, to use "wilt-resistant" seed where ever possible. We feel sure that by sowing "wilt-resistant" seed many disappointments due to Aster crop failures will be eliminated. This year we offer "wilt-resistant" seed of thirty-six kinds. More will be ready next season. No grower, that we know of, would think of using ordinary Aster seed, after once having used "Wilt-Resistant."

Queen of the Market Asters

This extra-early variety should be started in the hot-bed or greenhouse in March and transplanted to the open ground as soon as the weather permits. All Varieties "Wilt-Resistant" Except Rose.
